### Tutorial #7 Altium Designer (en español) - Visualización y creación de componentes en 3D

Altium Designer's PCB Editor uses the concept of Design Rules to define the requirements of a design. These rules collectively form an 'instruction set' for the PCB Editor to follow. They cover every aspect of the design - from routing widths, clearances, plane connection styles, routing via styles, and so on - and many of the rules can be monitored in real-time by the online Design Rule ...

A Net Class is a logical collection of nets of similar functionality that can be used as a basis for creating a targeted design rule. Net classes are especially convenient because they can be highlighted in a separate color on the board, therefore, increasing the traceability and the flexibility to set up rules for them. It is not a secret that, for the sake of reliability, the power supply ...
