This essay uses Michel Foucault's notion of biopower to explore how dogs were used by the United States military in the Vietnam wars to mitigate the territorial advantages of the Viet Cong and North Vietnamese Army. Relying in particular on the account by U.S. soldier and dog handler John C. Burnam, the essay also shows agency to be situational: since the dogs' superior sensory abilities ...

Biopolitics is a complicated concept that has been used and developed in social theory since Michel Foucault, to examine the strategies and mechanisms through which human life processes are managed under regimes of authority over knowledge, power, and the processes of subjectivation.

Biopolitics: An Overview | The Anthropology of Biopolitics
In Biopolitics of the More-Than-Human Joseph Pugliese examines the concept of the biopolitical through a nonanthropocentric lens, arguing that more-than-human entities—from soil and orchards to animals and water—are actors and agents in their own right with legitimate claims to justice. Examining occupied Palestine, Guantánamo, and sites of US ...

Duke University Press - Biopolitics of the More-Than-Human
The Birth of Biopolitics is a part of a lecture series by French philosopher Michel Foucault at the Collège de France between 1978 and 1979 and published posthumously based on audio recordings. In it, Foucault develops further the notion of biopolitics introduced in a previous lecture series, Security, Territory, Population, by tracing the ways in which the eighteenth-century political economy marked the birth of a new governmental rationality. Foucault uses the term ...

(PDF) "The Race War Within: Biopolitics of the Long Cold ...
In the work of Foucault, biopolitics refers to the style of government that regulates populations through " biopower " (the application and impact of political power on all aspects of human life). Morley Roberts, in his 1938 book Bio-politics argued that a correct model for world politics is "a loose association of cell and protozoa colonies".
